Practical 2

Creating account, repository on Github and Cloning repository in Github

Step 1: to create an account on github go to <https://github.com> click on Sign Up

Step 2: you will be directed to a page like this

Join GitHub

Create your account

Username *

Email address *

Password *

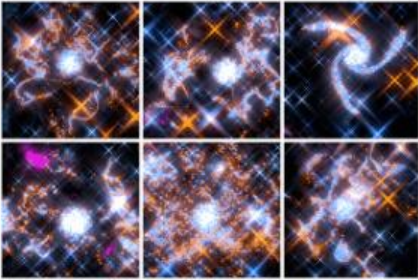

Make sure it's **at least 15 characters** OR **at least 8 characters including a number and a lowercase letter**. [Learn more](#).

Email preferences

☒ Send me occasional product updates, announcements, and offers.

Verify your account

Pick the spiral galaxy

Create account

Fill in your details as per the requirement. Like this:

Create your account

Username *

aangikhandhar123

Email address *

aangi.khandhar123@gmail.com

Password *

.....

Make sure it's at least 15 characters OR at least 8 characters including a number and a lowercase letter.
[Learn more.](#)

Email preferences

☒ Send me occasional product updates, announcements, and offers.

Verify your account

Please solve this puzzle so we
know you are a real person

Step 3 : After clicking on create account you will be directed to this page:

Please verify your email address

Before you can contribute on GitHub, we need you to verify your email address.

An email containing verification instructions was sent to [surabhisalunke05@gmail.com](#).

[Resend verification email](#)

[Change your email settings](#)

Step 4: Check your email for a verification mail from GitHub

The email will look something like this:

[GitHub] Please verify your email address. Inbox x

GitHub <noreply@github.com>
to me ▾

Tue, Feb 2, 12:28 PM (13 days ago)

Almost done, @aangikhandhar! To complete your GitHub sign up, we just need to verify your email address: aangi.khandhar26@gmail.com.

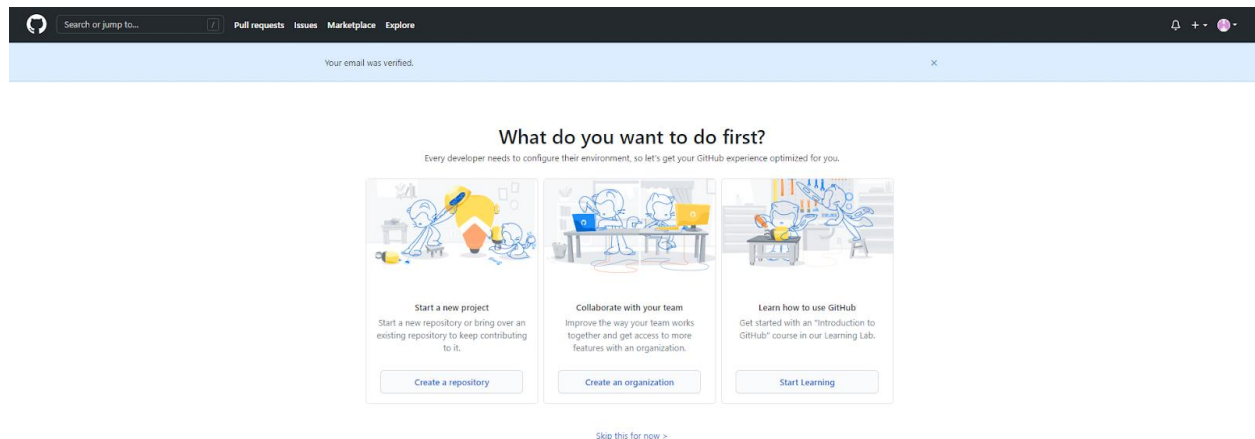

[Verify email address](#)

Once verified, you can start using all of GitHub's features to explore, build, and share projects.

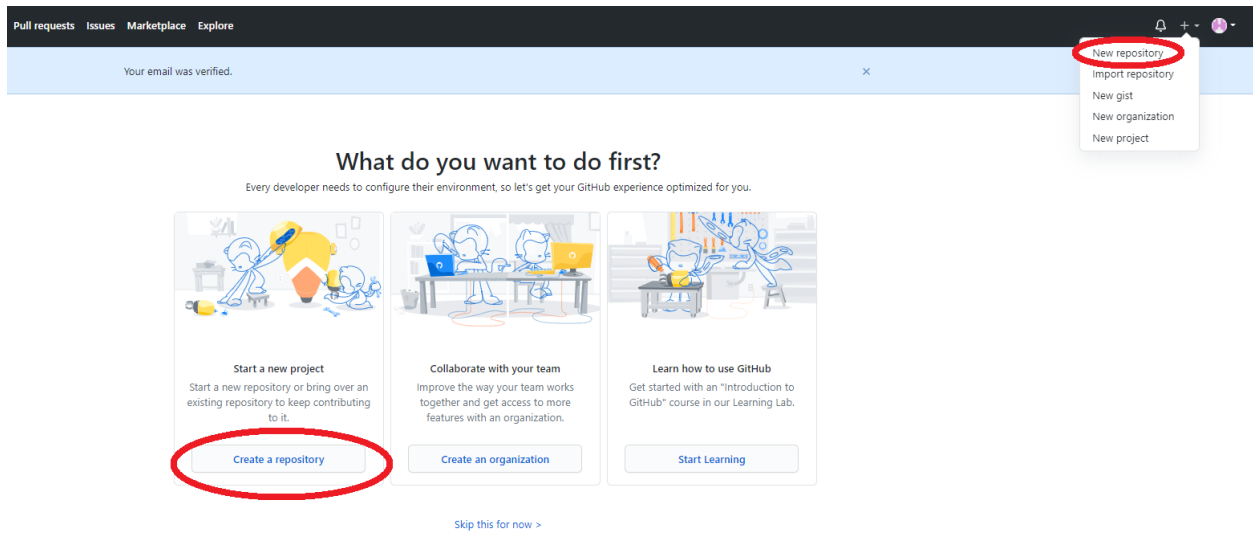

Button not working? Paste the following link into your browser: https://github.com/users/aangikhandhar/emails/149186394/confirm_verification/13aba00e26add87c380a1b043a510710e76ce96a

You're receiving this email because you recently created a new GitHub account or added a new email address. If this wasn't you, please ignore this email.

Step 5: Click on verify email address it will take you to this page:

Step 6: to create a repository

Step 7: fill in the information shown according:

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)

Owner *

 aangikhandhar

Repository name *

IT TOOL 

Description (optional)

☒  Public

Anyone on the internet can see this repository. You choose who can commit.

☐  Private

You choose who can see and commit to this repository.

Initialize this repository with:

Skip this step if you're importing an existing repository.

☐ Add a README file

This is where you can write a long description for your project. [Learn more.](#)

☐ Add .gitignore

Choose which files not to track from a list of templates. [Learn more.](#)

☐ Choose a license

A license tells others what they can and can't do with your code. [Learn more.](#)

Create repository

Step 8: you will see your repository on your account
